# CITY BANK CALLS GOLD HERE.

IT HAS INTERCEPTED \$2,500,000 ON THE WAY TO LONDON.

Exchange Brokers Have Said They Could Only Import Gold at a Loss, but the Bank Says It Will Make a Profit-Most of the Gold Now Off the African Coast.

South African gold is to be brought to this country by the National City Bank to help relieve the stringent monetary conditions here. The bank has intercepted \$2,500,000 of gold from Africa on its way to London and will bring it here. Of this amount \$1,500,000 is now off the west coast of Africa, and will be here in about two weeks. The remaining \$1,000,000 will get here somewhat later.

At the National City Bank yesterday it was explained that the transaction was a regular exchange operation, and had been made at a profit to the bank. It was also learned that all the immediate supplies of gold from South Africa have been con-

The announcement of the National City Bank's engagements probably will surprise a number of local representatives of foreign exchange houses, who have figured that to bring gold from Europe on the basis of yesterday's quotations for exchange would mean a loss to the importer of from \$1,000 to \$1,500 on each \$1,000,000 imported. Nevervas only a question of a day or two, in view of the stringent local money market, before gold would be imported from Europe.

The money market yesterday was firm early in the day, call loans being made on the Stock Exchange at as high as 20 per on the Stock Exchange at as high as 20 per cent. The ruling rate for the majority of the loans was 15 per cent. In the late afternoon the rate ran off to 6 per cent., at which it closed. which it closed.
The stock market largely reflected the

course of the call money market in its fluctuations. Prices weakened early in the day while the high money rates were prevailing, but railied substantially when the rates fell later in the day.

THE LONDON MARKET. Pavorable Impression of Secretary Shaw's Action.

Special Cable Despatch to THE SUN. LONDON, Sept 15 .- There was no increase in speculative activity on the Stock Exchange to-day. Investment business was checked by the uncertain feeling in regard to money. Future attention is centred he monetary situation in New York. The action of Secretary of the Treasury Shaw in admitting free banks as temporary depositories made a favorable impression, but it is considered that gold imports from the United Kingdom appear likely, and an advance in the London bank rate is being seriously discussed, hence discounts remain firm.

Money has been wanted in connection with the payment of £1,000,000 India sterling bills, but it advances daily from 2 to 21/2. American railroads, after exceeding New York parity, declined in the afternoon and closed from 1/2 to 1/2 down. Baltimore and Ohio lost 11/2, Wabash common 1 and Atchison %. English railways and South African mining shares were dull. Foreign government securities followed the weakness of the Continental bourses.

THE GAY STATE BANKERS.

Theatre and Deimonico Supper, Dinner and Vaudeville for Them This Year. Leslie M. Shaw, Secretary of the Treasury, is expected to make an address at the opening of the convention of the New York State Bankers' Association on Oct. 9 in the New York Clearing House.

In the evening the bankers will attend a gala performance of the "Chinese Honeythe whole of the Casino Theatre moon," the whole of the casino I heatre having been bought for the occasion, and a supper by Delmonico will be served in the theatre fover after the performance. On Oct. 10 there will be a day business meeting. After it a dinner at the Waldorf-Astoria, at which about 800 persons are expected. In place of the usual speakers there will be a vaudeville programme.

#### WILL EXTEND VOTING TRUST. Majority of Southern R. R. Stockholders Assent to Directors' Proposal.

It was announced yesterday that a majority of each class of stockholders of the Southern Railway Company had already assented to the request for an extension of the Voting Trust for five years. According to the official circular asking for de-posits of trust certificates Sept. 15 was the final day for their presentation, but it was learned yesterday that there will be an extension of the time to Oct. 1. No meeting of the Southern Railway board has yet been called to vote on the semi-annual dividend on the preferred stock.

Petitions in Bankruptcy.

A petition in involuntary bankruptcy was filed yesterday against Henry W. Mayer, Gustave Mayer and Samuel M. Werthelmer, composing the firm of Mayer Bros. & Wertheimer, wholesale dealers in jewelry at 525 Broadway. It was alleged, among other things, that they have concealed or removed property to the amount of \$25,000.

Hoffman & Wahle, who filed the petition for three creditors, said that the liabilities are about \$60,000 and assets probably \$7,000, and about \$60,000 and assets proposity \$7,000, and that the assets up to a week ago were sufficient to pay the debts, but since then cash and other assets of the firm have been taken by Henry W. Mayer, the senior partner, without the knowledge of the others, and now there is only a very small amount of assets left.

Judge Adams of the United States District Court appointed Robert A. Inch receiver of the company's assets.

Judge Adams of the United States District Court appointed Robert A. Inch receiver of the company's assets.

Joseph Spears, builder, of 2281 Third avenue, has filed a petition in bankruptcy, with liabilities \$37,606 and nominal assets 16,361, in debts due him, \$8 cash in bank and an interest in property in Third avenue between 188th and 188th streets.

A potition in involuntary bankruptcy has been filed against the Gordon & Buchanan Cigar Co. of 28 Warren street. It was incorporated in December last with a capital stock of \$250,000. Powhatan G. Gordon became president and Charles P. Buchanan vice-president. The company has been winding up business for several months. The liabilities were reported to be about \$18,000.

# Business Troubles.

William F. Willis and Julius T. Staples, composing the firm of Willis & Staples, jobbers in bosiery and white goods at 368 Broadway, made an assignment yesterday without preference to Andrew H. Kelly. They were employed for twenty years by Butler, Clapp employed for twenty years by Butler, Clapp & Co., and began business on their own ac-count eight years ago. Mr. Willis said yes-terday that there was nothing in it and he had decided to quit. The liabilities are about \$12,000 and assets from \$8,000 to \$9,000. Fred A. Johnson and G. W. Anderson, com-posing the firm of Johnson & Anderson, dealers in Wall paper at 38 and 38 East Twen-tieth street, made an assignment yesterday tieth street, made an assignment yesterday to Charles E. Wanmaker without preference. In July last their liabilities were about \$10,000 and nomin il assets \$18,900.

The Aucaterionie Company, printers and makers of paper novelties in Reade street, has applied to the Supreme Court for voluntary dissolution. The liabilities are about \$200.

Notes From Wall Street.

Presidents and traffic managers of the Vanderbilt railroads are expected to meet In this city in the latter part of this week to take up matters of special importance.

President Henry C Rouse of the Missouri.

Kansas and Texas Railway Company leaves next week for the Philippines, where he is to make a tour of the islands in company with Gen. Miles.

One taste convinces Best of all modern foods

## M., K. & TEXAS EXTENDING. System's Plans Interesting in View of Projects for Southwestern Control.

President Henry C. Rouse of the Missouri, have built so many branch lines into the territory naturally tributary to the Missouri, liberal policy of new construction and betterment can secure for the "Katy" its share of traffic. According to President Rouse's report about 400 miles of new line have lately been built and are now under

The Missouri, Kansas and Texas is now owned almost absolutely by the Rocke-fellers. A large majority of the stock and bonds of this company are held by members of the Rockefeller family. The fact that the Gould Southwestern lines are active competitors of the Missouri, Kansas and Texas is significant in view of Wall Street forming to control the Southwestern traffic. As a result of the advance is President Rouse attaches particular in-portance to recent Atchison extensions into the territory traversed by his road.

Gross earnings of the Missouri, Kansas and Texas for the year were \$16,395,400; operating expenses and taxes, \$11,871,564; net earnings, \$1,519,838. The gross earnings show an increase of \$988,317 and the net an increase of \$253,000. The increased mileto unfavorable crop conditions and a large falling off in the movement of coal Contracts have been made by the Missouri, Kansas and Texas management for the speedy delivery of 30,000 tons of steel rails and new construction of lines aggregating 275 miles will be pushed.

## POINT FOR COTTON BROKERS. In Future They Can Stop Shipments Here

to Take Advantage of the Market. The Trade Committees of the Cotton Ex- gold from Paris. change has obtained from the transportation companies east of the Mississippi the privilege of substitution of bilis of lading for the port of New York, and it is expected that the companies west of the Mississippi will grant the same privilege. This means that the members of the exchange will have control of the routing of their own

Cotton bought in the South and directed to Liverpool can be stopped here to take advantage of an advance that has occurred in the local market during the period of shipment.

Transfer books close on the 18th inst.

FINANCIAL AND COMMERCIAL. MONDAY, Sept. 15.

The stock market to-day, with the exception of scattered liquidation by the Kansas and Texas Railroad in his annual clients of commission houses, due to high report just issued explains the reason for money rates, was mainly professional. the recent extensive improvements on that In the forenoon, and particularly just be- chi Mil & St P ch system. He says that competing roads fore midday, declines extending to 1% per cent. occurred in some of the usually active railway shares, but the rise in call money to an extreme 20 per cent. might be fairly said to have decreased the volume of dealings, rather than created a confident selling pressure. Money was strong until late in the day, when, after most of the loans had been placed, quotations as low as 5 per cent. were reported. After the

As a result of the advance in call money. the foreign exchange market developed further weakness, and this fact led to expectation of early gold import announcements and induced the traders to cover part of their lines. It was appreciated also that the money paid to-day on account of the second installment on subscriptions to the new Oregon Short Line participating bonds, the Standard Oil dividend and the regular quarterly disbursement on Consolidated Gas, aggregating about \$20,000,000 to \$21,000,000, would soon be redistributed in banking channels, and that the money market also would be relieved by the anticipation of the interest due Oct. 1 on the Government 2s of 1930 and 4s of 1907. It is known that at least one prominent banking interest was figuring very closely today upon the question of importation of

The monetary situation naturally dominated interest and caused other influences to be virtually ignored. London did comparatively little in this market on balance, attention at that centre being reported mainly directed, as here, to the local monetary situation and prospects. The developments of the day included large engagements of wheat for export and a considerably larger movement of cotton to the outports. At the present ratio of increase in anthracite shipments the output is approximating about one-fourth of a normal monthly total of about 5,000,000 tons. By the end of the week anthracite officials hope to report shipments of at least one-third of the normal mining. It will doubtless, be a long time before the complete collapse of the strike takes place, but the latest advices from the anthracite regions show that the strikers are extremely discouraged over their long and fruitless idleness and gloomy prospects.

The official Sub-Treasury statement today showed that that institution had gained from the banks, up to the close of business on Saturday, \$504,000. Money rates were quoted unusually early, the opening figure being 12 per cent. The banks were practically out of the market for time money and prime mercantile paper. The direct shipments of funds from New York to the interior continue lighter than the Sub-Treasury collections, but deposits of currency for transfer were resumed, \$200,000 being shipped to New Orleans and \$10,000 to Chicago. In the opinion of prominent Western bankers, the demand for money for crop moving purposes is not likely to become acute, owing to the lateness of the season, which is expected to spread the outward movement over a considerable period. It is pertinent to state again that the smaller banks in the South and West, according to the latest reports, held in excess of last year, within about \$4,000,000 of the entire amount that was transferred to the interior through the Sub-Treasury in the last three months of 1901.

The total transactions were a little short f 640 000 shares, and were well distributed Transactions in Atchison common, Union Pacific common and Missouri Pacific approximated 42,000 shares each. The only one of these stocks to sustain a net loss of a full figure was the last mentioned. Other railway stocks that were prominent included Southern Pacific, St. Paul, Wabash preferred, Canadian Pacific, Erie common, Louisville and Nashville, Manhattan Railway, Pennsylvania Railroad and Reading common, and in none of these did the net decline exceed 1/2 per cent. Norfolk and Western scored a slight net gain and this was true of Southern Railway, Union Pacific. which was second in point of activity in the whole railway list, also finished a slight fraction above Saturday's final figure. On light transactions, Brooklyn Rapid Transit left off unchanged, while declines averaging about a point occurred in Atchison preferred, New York Central, Illinois Central and Western Union Telegraph. Baltimore and Ohio was the weak feature,

declining early over 2 points. The industrial list made a comparatively good resistance to the reactionary tendency in railway issues. Sugar Refining was more active than in some time past and enjoyed an extreme gain of 21/4 per cent., about half of which was retained at the close. Amalgamated Copper and United States Steel issues sustained only insignificent net losses. The railway bond market was only moderately active and showed irregularity, with special weakness in Wabash B debentures. The curb market was inactive and prices moved irregularly. The features were Northern Securities. which started in 2 points lower and sub-sequently made a full recovery, and Rock Island issues, which lost all of early im-provement extending to a point. The stock market closed steady in tone at the
